SELECTED PROJECTS

MAAC Durgapur — Website UI/UX

UI/UX Designer | 2026 | Figma

- Designed the website UI concept for MAAC Durgapur, focusing on clear navigation, structured content and course discovery.
- Developed page layouts, interface components, icons, banners, buttons and course-related visual elements.
- Applied typography, colour, spacing and visual hierarchy to create a consistent, user-friendly interface with interactive concepts in Figma.

Nexo — Cryptocurrency App Platform UI/UX

UI/UX Designer | Independent Concept | Fintech / Cryptocurrency | Figma

- Designed a cryptocurrency app/platform UI concept to clearly present digital asset information and trading-related interfaces.
- Developed structured mobile interface layouts with emphasis on navigation, information hierarchy, usability and visual clarity.
- Created interface components and interactive UI concepts in Figma, maintaining consistency across the product experience.
- Explored interface patterns observed in CoinDCX, CoinSwitch Kuber and Mudrex as inspiration for an independent concept, with no official affiliation.

Strategy Constructions — Brand Identity

Brand Designer

- Developed a brand identity concept focused on professional visual communication.
- Explored typography, colour, composition and visual consistency to establish a cohesive brand presence.

EXPERIENCE

Decor by Mom

Freelance Graphic Designer | Duration: 6 Months

- Designed social media posts, banners and promotional creatives for digital brand communication.
- Created visual content using typography, colour, imagery and composition while maintaining visual consistency.
- Adapted creative assets for different promotional and marketing requirements.

MAAC Durgapur

UI/UX Designer — Project | 2026

- Designed website UI, interface components, layouts and interactive concepts using Figma.
- Applied UI/UX principles including typography, spacing, hierarchy and consistency.

DESIGN PROCESS

Brief → Research → Ideation → Wireframing → Visual Design → Prototyping → Feedback → Refinement

Approaches projects through structured research, visual exploration, wireframing, interface design, prototyping and iterative refinement.
